## **LIST OF PHYSICO-CHEMICAL TESTING LABORATORIES RECOGNISED BY THE INTERNATIONAL OLIVE COUNCIL FOR THE PERIOD FROM 1.12.2017 TO 30.11.2018**

---

---

According to Decision DEC-9/105-VI/2017, adopted by the International Olive Council (IOC) on 26 May 2017, IOC recognition is awarded, subject to all the conditions established in this regard by each country, according to the indication of the type of recognition requested, and subject to annual review, to olive oil testing laboratories that:

- submit an application to the IOC Executive Secretariat;
- provide proof that they have been accredited by a national accreditation body, describing any accreditation awarded and specifying the date on which it was issued (or, provisionally, a declaration to the effect that they are taking steps to obtain laboratory accreditation);
- prove they are proficient in applying the testing methods recommended in the IOC trade standard for olive oil and olive-pomace oil by participating in a check test organised by the IOC Executive Secretariat.

During its autumn session the IOC Council of Members endorses the list of olive oil testing laboratories that are awarded recognition for the period running from 1 December to 30 November. The list is divided according to the type of recognition into:

### **PRIVATE LABORATORIES**

#### **Recognition type C - Residues and contaminants testing**

##### **Grèce – Grecia - Greece**

##### **FOOD ALLERGENS LABORATORY**
